

SD TAR – Bio-degradable Solvent

SD TAR is a bio-degradable, extra strength, concentrated TAR remover for use on trucks, vehicles and other surfaces. SD TAR is non-corrosive. Even though it is a powerful cleaning agent & solvent, it is also very gentle to the environment. All of its components are 100% Biodegradable & renewable from natural resources. It is a natural and safe, effective alternative to diesel fuel & other hazardous and polluting compounds
