

BT230 – Drum Caddy

A mobile dispensing trolley with a full size spill containment sump moulded in one piece from medium density polyethylene, ensures a lightweight operation with the added benefit of excellent chemical resistance. The unique design enables one person to easily operate the trolley even with a full 205ltr drum on board. Once the trolley has been loaded and lowered to the horizontal position it can easily be pushed from the back greatly reducing the risk of operator strain .

Size	1750mm L x 780mm W x 650mm H
No. of Containers	1 x 210L drum
Sump Capacity	230L
UDL	300kg
Tare Weight	44.5kg
